State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Cyber-attack, Imperial County

On 04/14/19 at 1137 hours, the California State Warning Center (CSWC) received a report from the Cal OES Southern Region Duty Officer (SDO) advising of a cyber-attack affecting Imperial County.

- Imperial County Office of Emergency Services (OES) email servers and county systems are impacted.
- No life safety systems are impacted (9-1-1 or Sheriff's Office).
 - They are on a separate network.
- Imperial County Information Technology (IT) is working to restore the servers and identify any additional impacts.
- California Cybersecurity Integration Center (Cal-CSIC) is in communication with Imperial County OES, IT and County CEO; and providing assistance to Imperial County IT.
- A cyber team is enroute, along with a Cal-CSIC liaison, estimated time of arrival is in the morning on 04/15/19.
- Cal-CSIC is in coordination with the Federal Bureau of Investigation (FBI).
- There is no estimated time of restoral.

- None reported.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Light precipitation in the northern mountains and foothills, and mountains of the Sierra north of I-80 into today.
- An increase in rain and mountain snow mainly north of I-80 on Monday.
 - Snow levels will drop to around 5,500 feet with accumulations around 4 to 6 inches, with locally higher amounts over mountain peaks.
 - Hazardous travel may be seen over passes, with the heaviest snow forecast Monday afternoon and evening.
 - [A Winter Weather Advisory has been issued from 1100 hours on Monday to 1100 hours on Tuesday.](#)
- Lingering light snow may be seen through Tuesday morning.

SOUTHERN CALIFORNIA

- Winds combined with moisture will begin this afternoon and continue through Tuesday afternoon.
 - Monday morning, expect low clouds and fog to push into most coastal/valley areas.
 - Strong winds could approach advisory levels in the Antelope Valley.
- Some rain will be seen in San Luis Obispo and Santa Barbara Counties Monday night into Tuesday morning.
 - Interior sections of Ventura and Los Angeles County mountains will have better chance of showers on Tuesday.

WEATHER KEY POINTS

04/14/19 - 04/20/19

Sunday-Tuesday

- Precipitation will be confined from northern CA to the Bay Area with dry conditions across the rest of the state.
 - Most of the precipitation will fall on Monday. No significant weather impacts expected.
 - Snow levels are expected to hover around 7,000 feet during the day on Monday and fall to 5,000-5,500 feet overnight.
- Winds will increase across inland and southern California, bringing the potential for minor impacts across the region.

Wednesday-Saturday

- Increased temperatures late next week will begin to melt snowpack and will likely lead to rises in rivers and streams. No flooding impacts expected at this time.
- Winds will increase across a wider area of southern California, bringing the potential for minor impacts across the region.
- Above average temperatures and dry conditions due to offshore flow are expected during the end of the week across Southern CA.

CALIFORNIA WEATHER IMPACTS

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2019-LAW-510, 03/27/19:** On Tuesday, 03/26/19, a traffic collision occurred on US 50 at Pioneer Bridge. A vehicle, believed to contain 2 occupants, traversed off the bridge into the Sacramento River. Sacramento Sheriff's Office (SO) and the California Highway Patrol (CHP) are working in Unified Command reference this recovery. **UPDATE: 04/12/19:** The salvage platform arrived on site and secured over the recovery site. All involved agencies briefed at 0600 hours and deployed. Sacramento SO and Sacramento Police Department (PD) Marine Units provided waterborne security and safety. During operations, approximately 20 family members of the victims arrived and were briefed by CHP. They remained on scene for the duration of operations. Divers located the truck and began their operational assessment. Red Cross provided a canteen and lunch to support the recovery mission, to include the victim family members. They will return to support Saturday operations and include a family support counselor. Plan for Saturday mission is continued assessment and possible attempt to remove the truck from the river. **UPDATE: 04/13/19:** The salvage crew is continuing to secure the tow truck with cargo straps and webbing to the cab and bed to insure it remains intact upon ascent. **1200 hours:** Hooks and cables were attached to the platform deck of the tow truck. They raised it slightly off the river bottom to permit built-up sand and sediment to wash downstream. Once this is complete, divers will continue to secure the platform deck, frame and rear axle. **1600 hours:** Efforts to dislodge the tow truck from the river bottom consumed most of the afternoon. Lift slings were configured on the truck for extraction on Sunday (04/14/19). **MISSION ONGOING.**

Cal OES MISSION TASKING

Cal OES Missions

- **2019-SOC-275:** Request for Caltrans Engineer to provide initial technical assistance and determine the scope of the storm drain assessment project alongside city contractors for the town of Paradise. (Coordinating)
- **2019-SREOC-57753:** Requesting equipment to excavate material from under road culverts. (On Scene)
